- 12.16 **21/02360/F - 17 Augustan Road, Chesterton - Proposed two Storey side/rear extension & single storey rear extension – "Chesterton Parish Council Object to this Planning Application on the following grounds:**
 - 1. Lack of light to righthand neighbour from the over shadowing new 2 storey extension.**
 - 2. Too close to the neighbour on the left/ block of flats.**
 - 3. This appears to be an attempt to build an 'extension' which clearly could easily be split into 2 properties as there are bedrooms and bathrooms in both sectors and where does the dining room have its own front door? opening out onto the same aspect as the door and hall?**

Comments:

If this is to be passed, please take into consideration the following:

- 1. State provision for additional parking,**

2. Remove and reconfigure the new dining room so only one entrance into the house from the front.
3. Add a condition that this extended property is not split into 2 separate dwellings.
- 12.17 **21/02408/F** - Spring Well Farm, Kirtlington Road, Chesterton, OX26 1TW - **Proposed Covered Riding Surface** - "Chesterton Parish Council don't have any objection to the Planning application only comment that the building shouldn't be too high and restrictions that this application is only used for equestrian use only."

*Would like to see timescale for the whole programme - start date and finishing date
*Would like to see the application for the overflow car park as soon as possible to stop grass verges being used.
*CPC welcome and support local business
- 12.19 **21/01580/F** - Kemsley Farm, Northampton Road, Weston on The Green, OX25 3AA - **Change of use of land from agriculture to equestrian use. Erection of a building to provide stabling for 36 ponies with associated facilities for the storage of tack, feed, and equipment to tend the land. Formation of an exercise arena and exercise track and school area. Relocation of existing site access to Akeman Street. Chesterton Parish Council have no objection to the above-mentioned planning application but would ask you to note our comments as follows: 1. Signage on Akeman Road 2 Provision for Cars - could not see anything on plans.**
- 12.20 **21/00873/F** – Kemsley Farm, Northampton Road, Weston-On-The-Green, OX25 3AA, - **Extension to and conversion of barn to form a single swelling house and associated works - No objection but provision of bats needed and concern over lowering the proposed ground floor because of the water table and nearby stream.**
- 12.21 **21/02254/SCOP** - Axis J9 Phase 1 OS Parcel 4200 Adjoining Middleton Road and Empire Road Bicester - **Scoping Opinion** - with respect to the scope of the Environmental Impact Assessment (EIA) in relation to development proposals of approximately 7 hectares of land. **The new A4095 Strategic Link Road is the bypass for the north side of Bicester and will be accessed via the ALREADY BUSY Vendee drive / Middleton Stoney Rd roundabout. This roundabout in its present format will not cope with the increased volume of traffic from the new development and lorries choosing to use this new road. The new A4095 link road will add considerably to the noise levels on the neighbouring Greenwood estate and Kings Meadow estates. A projected plausible traffic survey needs to be calculated as a high percentage of lorries and cars will use this new road to bypass Bicester if heading north. Existing excess water plans take no account of the area already covered by the new warehousing and vast tarmaced areas. Neighbouring areas such as Beckdale Close have already been hit with flooding which hadn't occurred prior to the new warehouses being built. What has been done to mitigate more flooding issues and with further infrastructure and development on site what measures have been put in place to stop this from re-occurring and worsening. An in-depth flood risk survey must be done. Development must stand by new zero mixed emissions site which was part of the original agreement and CPRE are right to push for enforcement on this point as developer pushing for it to be waived as insignificant. Need stringent light pollution and air quality survey which is downplayed in this scoping document as no doubt the new road will be heavily lit and heavily used.**
