

CHESTERTON PLAYGROUP

Chesterton Playgroup is doing very well this year. We have lots of children and more children booked in to start with us at a later date. We have retained our staff team and have had a fun curriculum this year incorporating as many learning opportunities as possible!

We have just completed our annual accounts and are pleased to report a small profit, our aim is to balance the books and provide a good service, but the profit is timely, as with the rising wages and bills we can hopefully cover costs for the next year.

We are hoping to finalise our lease with the CIO. This is something we are hoping to achieve as soon as possible as we wish to improve our garden area, which we have some money readily put aside for, and also improve the inside as we would like to paint the hall again and improve our resources. This is all at a standing point until the lease issue is resolved.

We are lucky to have supportive volunteer Trustees who support playgroup and help us keep our business thriving.

On the staff side we are lucky to have a committed staff team who are always updating knowledge and attending courses to help with child development. They are also fantastic at planning fun and creative learning opportunities and if you look at our weekly blog on our website you can see a lot of the activities that we have enjoyed over the previous weeks.

We are pretty full for the following academic year and so we will continue to keep our standards high and have fun with the children while we teach everything from phonics, festivals and independence skills.
